

November 15, 2019

Dear Friends of WaterAfrica,

Imagine the jubilation of a whole village!

The well just came in, all villagers are dancing, water is shooting up, and kids are splashing clean water!

Imagine the excitement for women!

You will now have a very short walk to **clean** water instead of your average 3.7 miles per day for **dirty** water. Incidents of diarrhea and waterborne disease will plummet for your beloved children. You now grow crops closer to home. Your daughters can now go to school instead of fetching water.

Imagine the hope created for their future!

- Your prospects for dependable crops and economic security have improved.
- Your prospects for children's health and education are greatly improved.
- Your dreams of family and village cohesion are becoming a reality.
- Your future has dramatically changed because of water. You are full of HOPE!

Imagine the gratitude they feel for YOU! This past year you provided this hope by:

- Walking with us at the Global 6K For Water / Walk4Water in Foothill Park, Lake Oswego
- Joining us at our Wine2Water Garden Party at Monte Ferro Vineyard
- Donating to fund water, sanitation and hygiene for over 5,400 Zambians this year.
- Achieving another huge step toward our five-year goal (2016-2020) of providing for another 30,000 villagers by 2020 end. You have provided for 27,000 since 2016.

Imagine! Safe water for everyone! LET'S MAKE IT HAPPEN NOW!

Together we are making a huge difference not only in individual lives, but also entire communities, schools, and health facilities. It is a truly transforming difference.

**Please mail your check to WaterAfrica at PO Box 2012,
Lake Oswego, Oregon 97035, or give online at www.waterafrica.org.**

With deep gratitude to you and continuing hope for our Zambia friends,

Gary Mittelstaedt
President
